Acme Store Employee Handbook

Acme invests in tools and coaching so that welcome to acme never becomes a burden on the team. Store leaders keep written notes whenever an exception related to welcome to acme is made. Repeated or serious problems involving welcome to acme are handled through the normal review process. Where this handbook is silent on welcome to acme, managers will follow the spirit of our values.

Colleagues are encouraged to help one another understand the expectations on welcome to acme. Questions raised in good faith about welcome to acme will never lead to retaliation. The guidance on welcome to acme may be updated, and the latest version is posted in the break room. Consistency on welcome to acme helps customers trust us and helps colleagues work together.

New team members are introduced to welcome to acme during their first week on the floor. Good judgement matters, and the rules on welcome to acme are not a substitute for common sense. This section explains how welcome to acme works at every Acme location. Local laws sometimes add requirements on welcome to acme, and those always take precedence.

Managers are expected to apply the guidance on welcome to acme consistently and fairly. Clear communication is the most reliable way to avoid misunderstandings about welcome to acme. Examples in this section on welcome to acme are illustrations rather than an exhaustive list. Everyone shares responsibility for welcome to acme, whatever their role or seniority.

How to Use This Handbook

Please read this part of the handbook carefully, because how to use this handbook affects daily work. Local laws sometimes add requirements on how to use this handbook, and those always take precedence. This section explains how how to use this handbook works at every Acme location. Everyone shares responsibility for how to use this handbook, whatever their role or seniority.

Department leads may add store-specific detail on how to use this handbook in their own briefings. Our approach to how to use this handbook reflects the values described at the start of this handbook. Team members who have questions about how to use this handbook can also contact the People Team. Clear communication is the most reliable way to avoid misunderstandings about how to use this handbook.

Where this handbook is silent on how to use this handbook, managers will follow the spirit of our values. Acme invests in tools and coaching so that how to use this handbook never becomes a burden on the team. Questions raised in good faith about how to use this handbook will never lead to retaliation. Examples in this section on how to use this handbook are illustrations rather than an exhaustive list.

Colleagues are encouraged to help one another understand the expectations on how to use this handbook. Consistency on how to use this handbook helps customers trust us and helps colleagues work together. Feedback from customers often shapes how we think about how to use this handbook over time. Repeated or serious problems involving how to use this handbook are handled through the normal review process.

Please read this part of the handbook carefully, because loss prevention affects daily work. Consistency on loss prevention helps customers trust us and helps colleagues work together. Everyone shares responsibility for loss prevention, whatever their role or seniority. Good judgement matters, and the rules on loss prevention are not a substitute for common sense.

If anything about loss prevention is unclear, speak with your shift supervisor before acting. Examples in this section on loss prevention are illustrations rather than an exhaustive list. Repeated or serious problems involving loss prevention are handled through the normal review process. Questions raised in good faith about loss prevention will never lead to retaliation.

Lost and Found

Consistency on lost and found helps customers trust us and helps colleagues work together. Questions raised in good faith about lost and found will never lead to retaliation. Team members who have questions about lost and found can also contact the People Team. Feedback from customers often shapes how we think about lost and found over time.

Items left in the lost and found are held for 60 days before being donated. Examples in this section on lost and found are illustrations rather than an exhaustive list. The People Team keeps a short frequently asked questions sheet covering lost and found.

Repeated or serious problems involving lost and found are handled through the normal review process. We review our practices on lost and found regularly and welcome suggestions from the team. Please read this part of the handbook carefully, because lost and found affects daily work. The guidance on lost and found may be updated, and the latest version is posted in the break room.

Our approach to lost and found reflects the values described at the start of this handbook. Local laws sometimes add requirements on lost and found, and those always take precedence. Managers are expected to apply the guidance on lost and found consistently and fairly. Everyone shares responsibility for lost and found, whatever their role or seniority.

This section explains how lost and found works at every Acme location. Department leads may add store-specific detail on lost and found in their own briefings. Good judgement matters, and the rules on lost and found are not a substitute for common sense. Colleagues are encouraged to help one another understand the expectations on lost and found.
